

# Case Study

**Project:** Building 755, Lancashire  
**Product/System:** Enviroplan Single Ply Membrane  
**Size/Value:** 500m<sup>2</sup>

Gables were employed directly by the client to work on a building within a high security area in a sensitive environment. The project involved installation of the Enviroplan single ply waterproofing system, to give a 20 year waterproofing solution.

Meeting all security and safety criteria, Gables ensured that all preparation and installation works were carried out without disruption to the work site in question.

The roof deck waterproofing was completed within tight time restraints to give a uniform finish and the desired 20 year guarantee.
