

Case Study

Project:

**Roof 1, Ringway Primary School,
Manchester**

Product/System:

Bauderflex Built up Felt System

Size:

440m²

The existing bitumen felt substrate had come to the end of its life. & refurbishment was recommended with a warm built up felt system.

The works to Roof 1 involved the installation of 80mm insulation & a two layer, bituminous membrane, offering a 20 year guarantee.

Majority of the project was carried out during the school holidays but the final works were completed during term time which meant close co-ordination with the school was required to ensure disruption was kept to a minimum.
